Game	Team 1	Score	Team 2
1	A + B	___ – ___	C + D
2	A + C	___ – ___	B + D
3	A + D	___ – ___	B + C

How it works: players are split in rank order into boxes of four. Each box plays three games, so everyone partners everyone once. Keep each player's wins (W), points for (PF) and points against (PA). Rank within the box by wins, then point difference (+/–). The top finisher in each box moves **up** one box next session and the bottom finisher moves **down** one. Box 1 is the top court.
